

Librela for Dogs

Meet Maize

Maize is an 11 year old lab mix. Her owners noticed that as she got older, she spent more time laying around and started to have a hard time getting up off of the floor. After hearing about **Librela** her owners decided to give it a try. Librela is a **once a month, safe, long term injection for joint pain** caused by arthritis. Maize's owner noticed that after just a couple of months of treatment that Maize has her spunk back and is full of energy again! The only bad thing is that she's feeling good enough to start chasing cars like she did when she was younger!

Give our offices a call at [319-478-8411](tel:319-478-8411) or [319-442-3452](tel:319-442-3452) to help determine if Librela is right for your aging dog!

County Fair Season 2024

Over the last few weeks we've been blessed to serve the communities we live and work in by participating in three local county fairs: Benton, Tama, and Buchanan. From helping to check in animals to watching our own kids show their projects we have loved every bit of this time of year. It's always fun to see everyone's hard work come to together. Thank you to all of the kids, parents, support systems, organizers, and volunteers who make it possible!

Ultrasound Season

Our veterinarians are gearing up for ultrasound season for our cattle clients! With this service we are able to:

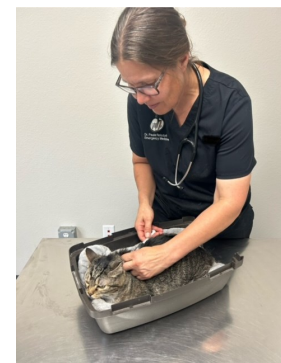

- Check for a heartbeat
- Determine the sex
- Determine AI or Bull Bred

Solensia for Cats

Meet Kink

14 year old cat Kink started to limp last winter which had her owner concerned. After her limp showed no improvement once the weather got warmer Kink was brought to us for an exam and was diagnosed with **osteoarthritis**. Cats are not always easy to give an oral medication to on a consistent basis. That's why **Solensia** was such a great option for Kink. As a **once a month injection** it takes the place of trying give your cat pills every day. Kink's owner says she is playing with toys and her younger housemate again! Kink is an A+ patient and is so cooperative for her shot each month!

Give us a call to see if your cat could benefit from this form of treatment!
